EVERY YEAR MANY PEOPLE MAKE QUT THEIR FIRST CHOICE FOR STUDY.

Here’s why you might like to make it yours.

BE IN DEMAND
QUT graduates are in demand. During your time at QUT you’ll gain the knowledge, skills and connections to thrive in your chosen field.

GLOBAL OUTLOOK
With QUT’s world-class courses and learning facilities, and programs for overseas experience, you will be prepared to work in Australia and internationally.

REAL-WORLD COURSES
Prepare for employment in a changing world with up-to-date courses and flexible options to tailor your degree to your interests.

RESEARCH WITH IMPACT
QUT researchers are working on some of the biggest challenges and opportunities facing Australia and the global community.

CONVENIENT CAMPUSES
QUT has campuses at Gardens Point and Kelvin Grove in central Brisbane. With high-quality academic, recreational and support facilities, you will find QUT the perfect place to study.

LEARN FROM THE BEST
You’ll be taught by award-winning teaching staff and have access to industry-standard facilities and opportunities for practical, real-world learning.

THE TIME OF YOUR LIFE
You will study in a culturally diverse and inclusive environment, with opportunities to help you discover your place in the world and make the most of your time at QUT.

The difference is real. Find out more at www.qut.edu.au/graduate-success
ACKNOWLEDGEMENT OF TRADITIONAL OWNERS

In keeping with the spirit of Reconciliation, we acknowledge the Traditional Owners of the lands where QUT now stands, and recognise that these have always been places of teaching and learning. We pay respect to their Elders—past, present and emerging—and acknowledge the important role Aboriginal and Torres Strait Islander people continue to play within the QUT community.
QUT’S BALANCED MIX OF THEORY AND PRACTICAL EXPERIENCE IN OUR WORLD-CLASS COURSES ENSURES YOU WILL BE IN DEMAND IN THE REAL WORLD.
A REPUTATION YOU CAN COUNT ON
QUT has a solid international reputation, ensuring your qualifications will be well regarded by employers in Australia and across the globe.

Don’t just take our word for it. Check out what graduates and employers have to say at www.qut.edu.au/graduate-success

PREPARE FOR YOUR CAREER
If you want to stand out from the crowd and give yourself the best chance of securing your dream job, don’t wait until your final year. Develop your professional skills and make valuable connections throughout your time at QUT, with:

• career planning advice
• workshops and online resources for employment seeking and interview preparation
• on-campus careers fairs and employer presentations
• work experience placements and career mentors.

OUR VISION FOR YOU
The world is changing and we need to change with it. We are preparing students for the real world of today, and more importantly, tomorrow.

As a QUT graduate you will:
• be a curious, agile and resilient learner
• employ different ways of thinking, broad perspectives and evidence-based decision making to inform practice, and to imagine and realise change
• contribute to, and impact on, the world in ethical and sustainable ways
• be an effective collaborator and communicator in your field and across fields
• use technology to inform and to collaborate
• interact locally and globally with knowledge of, and respect for, diverse cultural perspectives.

CREATING YOUR FUTURE
Many jobs of the future will be created through start-up companies and, as a QUT student, you can lay the groundwork for your entrepreneurial future. Entrepreneurship is at the heart of QUT’s real-world ethos and our teaching programs and student activities have a focus on start-ups and what it takes to create them.

ANDREW AGPALZA
Finance and decision science
My involvement with QUT’s leadership programs and the QUT Starters club is helping me realise my dream of being a serial entrepreneur and making a positive impact on society.

One of the projects I’m currently involved in is a social enterprise to re-establish connections between society and homeless people, through education, accommodation and mateship.
You’ll be prepared for your profession with award-winning teaching staff, opportunities for real-world learning and access to industry-standard facilities.

PRACTICAL COURSES
As a QUT student you will gain experience in our on-campus labs, studios and clinics, or work on simulations and real projects as part of your course. This will ensure you graduate with the practical skills you’ll need in your career.

REAL WORK EXPERIENCE
QUT provides many opportunities for students to undertake course-related work within an organisation. You can apply what you have learnt in class to real-world practices and prepare for your transition to the workforce.

CAREER RELEVANT
We know what employers want in our graduates—because we ask them. Our courses are designed and reviewed in consultation with employers to ensure you graduate with the knowledge and skills required now and into the future.

EXPERT TEACHERS
At QUT our university teachers are industry leaders who will inspire you and link you to the real world. You’ll be taught by full-time academic staff, as well as part-time lecturers and tutors who are working in the field and bring real experiences and contacts to the classroom. We also incorporate the latest research into your studies so you will graduate with advanced knowledge of your discipline area.

CYNTHIA WEBB
Earth science
The practical experiences offered at QUT are endless. I have unlimited access to world-class petrographic microscope labs and rock samples, and the knowledge and support of the teaching and health and safety staff. We have regular field trips including some that extend over several days or weeks. I have also attended industry networking events and made professional contacts in the mining and resources industry.
REAL-WORLD OPPORTUNITIES

REAL-LIFE TRAINING
Paramedic science students can participate in unique training exercises including trauma and road accident simulations. Working alongside Queensland Ambulance and Queensland Fire and Emergency Services officers, students assess the situation and devise a plan to ensure the best outcome for trapped patients.

PROFESSIONAL EXPERIENCE
Education students undertake professional experience placements and may also be involved in school and community engagement projects, such as the Out of the Box Festival and the Kelvin Grove Teacher Education Centre of Excellence.

INTERNATIONAL STUDY TOURS
Creative industries students have participated in projects with community organisations, international performing arts festivals, and study tours in New York, Europe, and Asia including Bollywood in India.

COMPETITIONS
Marketing students take part in QUTopia, a hands-on marketing simulation. Teams of students develop, promote and sell products and services in the QUTopia marketplace. Over a semester, they apply marketing theory and refine and improve their marketing efforts while competing against other teams for market and financial leadership.

WORK INTEGRATED LEARNING
Engineering, construction management and quantity surveying students undertake 60–80 days of work integrated learning with one or more companies before they graduate. Students may be involved in virtual and hands-on materials testing in state-of-the-art labs and workshops, or current construction projects in Brisbane.

GAIN CREDIT OVERSEAS
Law students have visited China, Indonesia, Japan, Bhutan, Myanmar, Cambodia and Vanuatu for placements of up to three weeks to explore social justice, human rights, environmental law and comparative law issues. Students have also arranged their own placements in Canada, Germany and Uganda. A Hong Kong placement will be available from 2018. Students receive academic credit towards their degree, with possible funding available for flights and expenses.
OVERSEAS EXPERIENCES
Each year, more than 1700 students take off on an overseas experience related to their degree, and many receive scholarships and financial support to help with expenses.

Exchange programs
QUT has exchange agreements with more than 200 partner institutions in 43 countries across the world. Whether you’re interested in economics in Hong Kong, engineering in Germany, or design in the UK, there is sure to be an opportunity that will help you stand out from the crowd when you graduate.

With QUT’s exchange program you can:
• boost your career opportunities
• earn full credit towards your QUT degree
• study overseas for one or two semesters
• enjoy a once-in-a-lifetime experience
• develop international friendships and contacts.

Other international programs
Many students also travel overseas for short-term programs. These include study tours developed with QUT academic staff, programs during semester breaks with our partner universities, and specialist experiences.

You could participate in climate change projects in Vanuatu, observe healthcare practices in Taiwan, undertake creative studies in New York or learn Spanish in Chile.

Visit www.qut.edu.au/study/overseas-study-and-exchange

STUDYING LANGUAGES
Enhance your degree and your career prospects by studying a language as part of your course. Languages are available through the Brisbane Universities Languages Alliance (BULA), a partnership between QUT, Griffith University and The University of Queensland.

You can choose from:
• French
• German
• Indonesian
• Italian
• Japanese
• Korean
• Mandarin
• Russian
• Spanish.

Mandarin is offered at QUT’s Gardens Point campus. To undertake other languages you will study at Griffith University or The University of Queensland as a BULA cross-institutional student.

Visit www.qut.edu.au/languages

AUSTRALIAN INDIGENOUS KNOWLEDGES
Our understanding of the world’s peoples begins at home. QUT offers the Indigenous Knowledges minor to students across all study areas.

ALEXANDRA CROWE
Architecture
Some of my most enjoyable experiences were participating in study tours and the QUT exchange program. I visited Singapore, Cambodia and Malaysia on an architectural study tour, and spent a year on exchange in Milan, Italy. Being immersed in different places, customs and cultures taught me to be open to a wide range of experiences and influences, shaping the way I approach design.
If you have a passion for discovery and innovation, a QUT research degree can launch you into many exciting careers.

REAL-WORLD RESEARCH
QUT’s research provides solutions to issues and concerns facing Australia and the global community, and is recognised as world standard.

Our research strengths and priorities include:
- biomedical engineering
- biomolecular science
- business of technology
- chronic disease intervention
- data science
- digital media
- education
- health systems
- injury prevention and management
- materials science
- plant biotechnology
- robotics
- technology and regulation.

Visit www.qut.edu.au/research

GET INVOLVED
QUT’s Vacation Research Experience Scheme offers high-performing students the opportunity to work alongside researchers and contribute to a research project. You will get a taste for research and can make an informed decision as to whether you want to pursue further research study.

Visit www.qut.edu.au/undergraduate-research-experience

QUT SOLVES AMAZON PROBLEM
The Australian Centre for Robotic Vision, based at QUT, has taken out first prize in the 2017 Amazon Robotics Challenge in Japan, beating 15 international teams. The challenge was designed to fill a gap in Amazon’s automated warehousing processes, with competitors providing solutions that allow robots to pick and stow items in boxes in an unstructured environment.

BANANA RESEARCH TO SAVE LIVES
In a humanitarian project backed by the Bill and Melinda Gates Foundation, QUT researchers have developed biofortified Ugandan bananas high in pro-vitamin A. With an estimated 650,000–700,000 children dying from pro-vitamin A deficiency worldwide each year and a further several hundred thousand going blind, this research will make a real difference to some of the poorest communities in Africa.

AUSTRALIA-FIRST BIOFABRICATION INSTITUTE
QUT is a partner in the Herston Biofabrication Institute, the first institute in Australia dedicated to 3D technologies for the hospitals of the future. Doctors, scientists, researchers and engineers will use revolutionary 3D imaging, computational modelling and printing technology to manufacture tissue infused with the patient’s own cells to replace lost or damaged bone, cartilage and other body tissue.
CONVENIENT CAMPUSES

GARDENS POINT CAMPUS
Gardens Point campus is located in Brisbane’s city centre, beside the Brisbane River and City Botanic Gardens. More than 30,000 students study at Gardens Point in the areas of:
• business
• design
• engineering
• health
• information technology
• justice
• law
• mathematics
• science
• urban development.

KELVIN GROVE CAMPUS
Kelvin Grove campus is situated just three kilometres from the city centre and is part of the Kelvin Grove Village. More than 18,000 students study at Kelvin Grove in the areas of:
• creative industries
• education
• health.
What you choose to study will determine which campus you study at and, if you are a double degree student, you may be based across both campuses.
A free shuttle bus running between Gardens Point and Kelvin Grove campuses leaves every 10 minutes during semester.

Students are welcome to use the facilities at both campuses. Facilities vary on each campus and include:
• student centres
• libraries
• 24-hour computing labs
• Oodgeroo Unit
• counselling and QUT medical centres
• cultural precincts, theatres and exhibition spaces
• cafés and food courts
• childcare centres
• bookshops, general stores and retail outlets
• automatic teller machines (ATMs)
• licensed bars
• swimming pools
• fitness centres and sporting facilities.

Find out more about QUT campuses at www.qut.edu.au/campuses-and-facilities

GANESH VELAN
Biomedical science and business
Gardens Point campus is very convenient—it is located in the heart of the city so it is easy to get to uni using public transport. The academic and other support services offered are great. Accessing this support on campus saves me time and money.
WORLD-CLASS FACILITIES

SCIENCE AND ENGINEERING CENTRE
The Science and Engineering Centre at Gardens Point campus brings together teaching and research in science, technology, engineering and mathematics. It is home to The Cube, one of the world’s largest and most advanced interactive learning and digital spaces. The centre also includes learning and research facilities, retail outlets, food court, a FINA-standard, 50-metre swimming pool and gym.

CREATIVE INDUSTRIES PRECINCT
The Creative Industries Precinct at Kelvin Grove campus, including an $88 million expansion, is the most sophisticated and technically advanced creative space in Australia. You will have access to social and collaborative areas as well as experimental black-box theatres, digital facilities, music and dance studios, production, performance, multimedia and visual art spaces.

QUT HEALTH CLINICS
As a health student you can work with real patients under the supervision of professionals in optometry, podiatry, clinical exercise physiology, psychology and counselling, social work, and nutrition and dietetics, at the QUT Health Clinics at Kelvin Grove.

NEW EDUCATION PRECINCT
The new Education Precinct located at the heart of Kelvin Grove campus will provide excellent facilities for social interaction and recreation when it opens later this year. With its futuristic design, you can take advantage of the imaginatively designed face-to-face and online interactive teaching spaces.

LAW LIBRARY AND COURTROOMS
Experience high-quality, city-based law and justice facilities at Gardens Point campus. The QUT Law Library provides specialised legal information, resources and access to highly qualified, industry-experienced law librarians. We have two on-campus courtrooms, the QUT Law Moot Court and the Industrial Court, providing real-world spaces for you to sharpen your courtroom skills.

Z BLOCK FACILITIES AND SECURITIES DEALING ROOM
As a business student you will have the advantage of using facilities such as the Balcony on 9, and a student lounge area with open access to computers, cafés, study areas, televised news, and digital announcements, in Z Block at Gardens Point. The Securities Dealing Room gives you access to financial data from Bloomberg, allowing you to conduct real-world financial analysis.
THE TIME OF YOUR LIFE

IS UNIVERSITY FOR ME?
Universities are diverse places with people from all sorts of backgrounds. There are people like you already succeeding at uni.
Spending time on campus and connecting with other students makes the transition to uni easier and boosts your academic success. It’s all about finding your tribe and feeling like you belong—and we have plenty of ways to make it happen, from orientation through to sport, clubs and events.

YOUR LEARNING
Your learning will be a blend of on-campus classes and online activities. You might attend lectures, tutorials, workshops, practicals, lab sessions or other types of classes. Online learning may include interactive lectures and discussions, simulations, workshops or other activities, and access to readings and resources. You may also participate in work integrated learning as part of your course, working with an industry or community partner on relevant projects or activities, or have opportunities to study overseas.

YOUR TIMETABLE
Your timetable will depend on the course you choose. You might be able to study full time, part time or online, and select from different days and timeslots to attend on-campus activities. Day and evening classes are offered for some courses. For an average unit, you might spend 10–12 hours per week split between on-campus, online or practical activities, as well as self-directed learning including reading and learning tasks, reflection and assessment tasks. Full-time study is usually three or four units each semester and part-time study is one or two units each semester.

YOUR ASSESSMENT
Your assessment might include written or oral assignments (individual or group), mid-semester and end-of-semester exams, or practical tasks. For an assignment, you might need to complete a task such as a set of drawings in architecture, and research the background of the topic using academic literature. Exams might be multiple choice, short answer, long essay or a combination.

THERE’S A STRONG Aboriginal and Torres Strait Islander community

MORE THAN 8000 international students from 100+ countries

24% OF QUT students come from outside Brisbane

QUINN YATES-SCLATER
Clinical exercise physiology
I currently have a four-day week with about 15 hours of classes and also spend time on campus studying, playing social netball or volleyball, and going to club events. I love campus life just as much as I love my course. The Learning, Development and Innovation workshops are fun, and I’m gaining some great skills.
LIFE ON CAMPUS

START STRONG
Orientation takes place before your formal classes begin and is essential for your transition to university life. You can take a campus tour, get enrolment help, meet your lecturers and tutors, or attend workshops to help you confidently start university. Don’t forget to make time for some fun, sign up for clubs and meet new people—Orientation week also includes activities such as barbecues, concerts and competitions.

LIVE IT UP
Enjoy cultural festivals such as the New Year Water Festival, Pasifika Night and Mid-Autumn Moon. You can participate in annual events such as the QUT Classic fun run, Dragon Boat Regatta and TEDxQUT, plus social events organised by students including dinner groups, live bands, campus parties, cooking classes, and networking events.

PLAY THE GAME
Join one of QUT’s premier sporting or recreation clubs, or represent QUT at intervarsity competitions and the Australian University Games. Social sports include touch football, netball, volleyball, soccer, dodgeball and basketball. Fitness facilities across our campuses include swimming pools, gyms, a cycle centre, an indoor sports stadium, tennis courts, a sports field and an athletics track.

DEVELOP YOU
Take part in leadership and development programs with opportunities for volunteering, campus or community projects, workshops and conferences. Make new friends through more than 150 QUT clubs including sporting, international, political, religious, faculty, recreational and special interest groups.

GET HELP
HiQ is your first stop for any questions about life as a student including IT help, library support, enrolment and fees, and access and referrals to specialist services. You can access HiQ online, via phone, through our QUT app or in person at one of our campuses. HiQ can also help you with questions before you become a QUT student.

Find out more about student life at www.qut.edu.au/study/student-life
FINDING YOUR WAY

SUPPORT FOR STUDENTS
We want you to achieve your academic, personal and career goals. There are a number of services available to support you and help you develop the skills you need to succeed at uni:

- free workshops, academic skills advisers and online resources to help you with time management, exam preparation, researching and writing assignments, and referencing
- career planning and job seeking support
- maths, science and IT support for all students
- libraries on each campus, plus a specialist law library at Gardens Point
- English language support
- free, confidential personal counselling
- bulk-billing QUT medical centres
- prayer rooms and chaplaincy service for all major religions
- free wi-fi, computer labs and technology support
- online access to your enrolment, timetable, fees, and study resources such as lecture recordings, assessment tasks and discussion forums
- legal advice through the QUT Guild
- 24-hour security service including sophisticated electronic building entry systems, late-night security escort services and a night bus.

ABORIGINAL AND TORRES STRAIT ISLANDER STUDENTS
The Oodgeroo Unit provides entry, transition and academic support programs for Aboriginal and Torres Strait Islander students. Students can access information on scholarships, bursaries and other financial assistance. Visit www.qut.edu.au/about/oodgeroo

DISABILITY SERVICES
If you have a disability, injury or health condition (which may be permanent, temporary, episodic or fluctuating), contact QUT’s disability advisers before you start studying at QUT, or soon after, to ensure support services are in place as soon as possible. Disability support is free, confidential and won’t appear on your student record. Visit www.qut.edu.au/disability-support

ELITE ATHLETES
QUT is recognised by the Australian Institute of Sport and the Australian Sports Commission as an elite athlete friendly university. QUT assists elite athletes by being flexible with admission and course progression, attendance requirements, leave of absence, assessment deadlines and examinations. Elite athletes may also be eligible for a QTAC selection rank adjustment and scholarships (see pages 25 and 27) and funding towards their competitions and associated travel expenses. More than 300 elite athletes, across more than 60 different sports, are currently enrolled at QUT. Visit www.qut.edu.au/elite-athlete-program
FINANCIAL SUPPORT
There are many ways to make ends meet while you study:
• you may be eligible for Austudy, Youth Allowance or Abstudy. Contact the Department of Human Services (Centrelink) on 13 24 90 or visit www.humanservices.gov.au
• QUT offers a broad range of scholarships (see page 27)
• our Careers and Employment service and the QUT Guild can help you find work. Visit www.careers.qut.edu.au or www.qutguild.com
• if you are already working and your study is work related, check whether your study costs are tax deductible by visiting www.ato.gov.au or ask if your current employer has a study assistance scheme
• short-term loans are available for eligible QUT students who are experiencing unexpected financial hardship that is adversely affecting their education
• QUT Guild operates a food bank with basic food items to help students who are short on cash
• low-income support officers in each faculty can assist with faculty-related study costs
• welfare officers can provide advice about budgeting, scholarships and bursaries, and financial support through Centrelink.

ACCOMMODATION
QUT’s accommodation service offers advice on tenancy matters, information about student accommodation and access to the accommodation vacancies database. Start thinking about your accommodation options well before you start university. For a list of suburbs close to QUT campuses and further information visit www.qut.edu.au/study/student-life/life-in-brisbane
There are three broad categories of student accommodation.

Student apartment complexes:
• a single apartment or the option to rent a room in a larger apartment
• fully furnished but students prepare their own meals
• a supported student community
• usually close to campus facilities and services
• cost per week is approximately $500 for a single apartment or $280 for an individual room in a multi-share apartment.

Catered student accommodation:
• either a homestay with a family in the Brisbane metropolitan area or a student residential college offering on-site catering
• may be suitable for students relocating to Brisbane while they settle in
• cost between $460 and $585 per week.

Share-house accommodation:
• houses that have been converted so students have their own fully furnished, lockable bedrooms, while sharing common areas such as bathrooms, kitchen and living area
• managed by real estate agents or other companies specialising in student accommodation
• cost from $180 per week.

TRANSPORT
QUT campuses are well serviced by public transport. Gardens Point campus is accessible by ferry, trains and buses. Kelvin Grove campus is connected to the city and suburbs by buses. A free accessible shuttle bus runs between campuses every 10 minutes during semester.
Parking is available at each campus but is limited. Parking permits may be available for students with a mobility impairment.
To find out more about your travel options visit www.qut.edu.au/campuses-and-facilities

Find out more about support services at www.qut.edu.au/support

KATIE DEVINE
Primary education
When I moved from Toowoomba to Brisbane, going to Orientation made things much easier—I learnt about QUT, met new people and found out about clubs and activities. The campuses are easy to get to and I can spend a whole day at uni with access to everything I need. Spending time at uni each day and attending classes helped me to make friends. QUT has great support services too.
FLEXIBLE STUDY OPTIONS
We know the world of employment is changing. By the time you graduate, there will be new careers and opportunities that do not currently exist. You can prepare by developing a range of skills and knowledge to make the most of whatever the future holds.

There are a number of ways you can expand your knowledge to fields other than your main area of study. Many of our courses offer individual elective units, a minor (four units) or second major (six to eight units). For example, combine a major in fashion communication with a minor in marketing or interior design studies to seek opportunities as a fashion merchandiser.

To find out about flexible study options in your preferred courses, see the online course information at www.qut.edu.au/study

DOUBLE DEGREES
For even more flexibility you can choose from a wide variety of double degrees, which give you the chance to gain qualifications across two areas (see page 20).

START QUT
Give yourself the best chance of finding a course you will enjoy by test driving university subjects while you are at high school. The START QUT program offers high-achieving students the chance to experience university and extend their studies.

You can study up to two QUT units by attending on-campus classes and completing the same assessment items as other first-year students.

START QUT students do not pay tuition fees and if you pass your units you may receive advanced standing (credit) for related degrees, allowing you to reduce university fees. You can also receive an adjustment of up to two QTAC selection ranks and up to four credit points towards the Queensland Certificate of Education.

MID-YEAR ENTRY
Keen to start studying as soon as possible? Mid-year entry is available in a range of courses so you may be able to start in July, rather than waiting until the following year. To check the available courses and application dates visit www.qut.edu.au/mid-year

Find out more about real-world courses at www.qut.edu.au/study

NATHAN OBERMULLER
Economics and decision science
I know that future leaders need to be multiskilled, and that’s why I combined my strong maths skills with my passion for learning how the business world works. I’ve been able to work with a number of different companies while at QUT, where employers have told me that my broad range of knowledge has helped me secure the job.
The OP/selection rank shown is the lowest to receive an offer in the January 2018 major offer round inclusive of adjustment factors, such as equity or subject adjustments. For more information about OP/selection rank thresholds see the online course information at www.qut.edu.au/study.

For interstate, TAFE or bridging course equivalent assumed knowledge subjects visit www.qut.edu.au/assumed-knowledge.

QUT is committed to enhancing the development and inclusion of Aboriginal and Torres Strait Islander knowledges within the academic curriculum. We offer the Indigenous Knowledges minor to all students in all disciplines.

* Field positions were used to select some applicants at the OP threshold.*
WHY CHOOSE A DOUBLE DEGREE?
A double degree combines two bachelor degrees into a single course of study that:
• allows you to specialise in two fields or pursue different interest areas
• is completed in a shorter time than two single degrees, saving you time and money
• provides a competitive advantage in the workplace with a broader range of skills and knowledge than single degree graduates
• gives you greater variety in your study
• helps you build networks in two professional areas.
Most double degrees take four to five years to complete.
You will graduate with similar knowledge, skills and qualifications as graduates from each of the single degrees. When you graduate, you can work in either discipline area, or a field that combines both areas, giving you greater flexibility in your career.

HOW DOES IT WORK?
Most double degrees take only a year longer to complete than a single degree but this doesn’t mean you will have a heavier workload. Generally, you will have the same number of units each semester as you would for a single degree. This is achieved by studying only the compulsory parts of each single degree and using your electives (or optional units) to complete your second study area.
You will usually undertake units from both study areas at the same time; however some double degrees are structured so you’ll spend some semesters focusing exclusively on one area.
As you will be studying over two discipline areas you may need to adapt to different expectations, processes and assessment requirements for each area.
Many students choose double degrees that have classes at both Gardens Point and Kelvin Grove campuses.
A free shuttle bus running between these campuses leaves every 10 minutes during semester.

HOW TO APPLY
You apply for a double degree the same way as you would apply for a single degree. Each double degree has its own QTAC code.

GETTING STARTED
You will need to attend orientation activities for each of your study areas. This is an opportunity to meet staff and students from your faculty and find out what is expected of you. There’s even a seminar about life as a double degree student to help equip you with the skills to succeed.
Visit www.qut.edu.au/study/double-degrees

EDUCATION DOUBLE DEGREES
In 2019 we plan to offer double degrees in secondary education with fine arts, information technology and business, subject to final approval. For more information please check the online course information in August 2018.

JORDAN KOPP-COLLINS
Psychology and law
A double degree gives me an advantage with the opportunity to gain more skills and knowledge, and pursue a career in either of these two study areas, or a combination of both. Law and psychology complement each other well—law tells us what people are allowed to do, and psychology explores the understanding of why someone chooses to act in a certain way.

</table>

This course has additional entry requirements. For more information visit www.qut.edu.au/additional-entry

The OP/selection rank shown is the lowest to receive an offer in the January 2018 major offer round inclusive of adjustment factors, such as equity or subject adjustments. For more information about OP/selection rank thresholds see the online course information at www.qut.edu.au/study

For assumed knowledge subjects see the single degrees on pages 15–19.
HOW DO I APPLY?

FOLLOW THIS SIMPLE GUIDE TO HELP YOU THROUGH THE APPLICATION PROCESS.
1. Find the course that suits you

We can help you figure out your future. Visit www.qut.edu.au/study to find out as much as possible about the courses you are interested in studying.

You can also access resources developed by our professional career counselors including:

- Kickstart Your Career, a free, online course to help you understand your options and work towards a satisfying career. Visit www.futurelearn.com/courses/kickstart-your-career
- Match My Skills, an online quiz that will generate a list of QUT courses to matches your interests and abilities. Visit www.qut.edu.au/graduate-success

2. Check the admission requirements

To be eligible for admission to QUT you must have completed Australian Year 12 (or equivalent), or be aged 17 years or older and be applying on the basis of previous study or work/life experience.

HOW SELECTION IS MADE

For most QUT courses you are selected on the basis of an OP or selection rank. Exceptions may apply to some courses with additional entry requirements.

OP and selection rank thresholds from the January 2018 major QTAC offer round are listed on pages 15–21. These pages show the lowest OP/selection rank to which an offer was made inclusive of any adjustment factors (equity, elite athlete or Year 12 subject adjustments). Published thresholds should be used as a guide only. Thresholds can change from year to year depending on the number of applications, the standard of the applicants (OP/selection rank) and the number of places available in the course (quota). For more information about thresholds see the online course information at www.qut.edu.au/study

ADDITIONAL ENTRY REQUIREMENTS

For some courses in design and fine arts, additional requirements such as a portfolio or audition, may apply. Education courses will be assessed on personal statements addressing suitability for teaching in addition to meeting OP/selection rank and prerequisite requirements. Visit www.qut.edu.au/additional-entry

ASSUMED KNOWLEDGE

For most courses, QUT has an assumed knowledge scheme. This means that we don’t use specific school subjects as entry criteria for our courses; however we assume you have the knowledge either through high school subjects or bridging courses. You may struggle with your studies if you don’t have this knowledge. Assumed knowledge does not apply to international students. For more information visit www.qut.edu.au/assumed-knowledge

BRIDGING COURSES

If you do not have the assumed knowledge we strongly recommend completing a bridging course through QUT or other recognised providers. QUT offers bridging courses in chemistry, mathematics and physics. Some bridging or enabling courses provide a selection rank as well as the opportunity to study assumed knowledge subjects. Visit www.qut.edu.au/additional-entry

PREREQUISITES

Bachelor of Education courses have prerequisite subjects that you must have studied in order to gain entry to the course. For more information, including prerequisite subject equivalents and how to meet prerequisites if you haven’t already, visit www.qut.edu.au/prerequisites

ENGLISH LANGUAGE PROFICIENCY

You must demonstrate that you can speak, write, read and comprehend academic English to a specific standard. If you have an Australian Year 12 qualification, you meet the English proficiency standards. If your first language is not English and you have not previously undertaken either senior schooling or higher study or significant professional work experience in the English language as recognised by QUT, you will be required to demonstrate your English language proficiency. Visit www.qut.edu.au/assumed-knowledge

OP AND IB GUARANTEE

If you receive an OP 1–5, or a selection rank of 93 or better, or have a completed International Baccalaureate Diploma with a score of 33 or better, you will be offered a place at QUT in a participating course. This means that when you find out your OP or selection rank you can assess your eligibility for a QUT course before receiving an offer. You still need to lodge a QTAC application by the closing date. Check the online course information for the OP Guarantee status at www.qut.edu.au/study
Have you completed Year 12?
Year 12 results (OP/selection rank) do not expire once you have finished school. Whether your school results are considered for an offer to a course will depend on whether you have additional recognised qualifications, completed while at school or post school.
Qualifications include Senior External Examination results, higher education study, vocational education and training (VET) study such as completed competency-based and graded AQF certificates III and IV, and diplomas, or bridging and enabling courses. Other post-secondary professional and paraprofessional qualifications (including creative arts, language and civil aviation qualifications, and professional registrations) and defence force service are also considered.
You may also use entry pathways such as employment experience and the Special Tertiary Admissions Test (STAT). Age restrictions apply.

Have you completed an enabling course?
QUT recognises a number of enabling or tertiary preparation courses that provide you with a selection rank and equip you with the academic skills required for tertiary study success. You must have successfully completed one or more semesters of full-time study in one of these programs for it to count towards the selection rank for a QUT application.

Have you undertaken vocational education and training (VET) study?
Your completed VET studies, such as Certificate III and IV, diplomas and advanced diplomas, with TAFE or private education providers are recognised by QUT and will be assigned a selection rank. A good result on the Special Tertiary Admissions Test (STAT) can improve your selection ranks for ungraded assessment qualifications.
In collaboration with TAFE Queensland Brisbane, QUT offers dual awards that lead to the award of a diploma from TAFE followed by a QUT bachelor degree.

Have you undertaken higher education study?
QUT recognises that success at tertiary level in one course can be the most reliable predictor of future success in other courses. All degree (or higher education) applicants will be considered if you have completed a minimum of at least one-quarter of a year of full-time study or equivalent.

Do you have work experience?
You can be considered for entry on the basis of professional qualifications and/ or paid work experience. Your selection rank for work experience may be further improved by a good result in the Special Tertiary Admissions Test (STAT).

GREG WYNNE
Electrical engineering
I completed a TAFE Diploma of Fitness after high school as it matched my interests at the time. Later I completed an electrical apprenticeship and worked with an amazing engineer who inspired me to go to uni. The diploma gave me a higher selection rank than my OP and I was offered a place at QUT.
SELECTION RANK ADJUSTMENTS
You may be eligible for selection rank adjustments, making you more competitive for a course offer. The maximum possible adjustment is 10 selection ranks (equivalent to 5 OPs) across all entry schemes. Adjustments may not apply to all courses.

Equity adjustment—educational disadvantage
If you have been disadvantaged in your education, a selection rank adjustment and a scholarship may be awarded through the Educational Access Scheme (EAS).

If eligible, you can receive a maximum adjustment of 10 selection ranks (equivalent to 5 OPs) for multiple EAS categories including financial hardship, home environment and responsibilities, English language difficulty, personal illness and disability, and educational disruption. Current Year 12 students and non-Year 12 applicants may be eligible.

If you are successful when applying for the financial hardship category, and you enrol to study at QUT, you will also receive a guaranteed $3500 QUT Equity Scholarship. All students are encouraged to make an application via QUT’s Equity Scholarship Scheme even if they are unsuccessful in their EAS application.

Apply for EAS on your QTAC application. If you are eligible, any selection rank adjustments are applied automatically to your QUT preferences. For more information phone 07 3138 5582 or visit www.qut.edu.au/study/educational-access-scheme

Elite athlete adjustment
If you are an elite athlete, referee or coach, we encourage you to apply for the QUT elite athlete special entry scheme via QTAC, which offers an adjustment of up to 6 selection ranks (equivalent to 3 OPs) to eligible applicants. Current Year 12 students and non-Year 12 applicants may be eligible. Support with managing your studies and scholarships may also be available. For details visit www.qut.edu.au/elite-athletes

Year 12 subject scheme
QUT’s Year 12 subject scheme offers the following adjustments:
- two selection ranks for passing Mathematics C, Physics or Languages Other Than English (LOTE) subjects (i.e., 4 SA or better)
- one selection rank for a passing university subject while at school (e.g., START QUT)
- two selection ranks for passing Engineering Technology or Aerospace Studies (i.e., 4 SA or better) for students who apply to study a QUT Bachelor of Engineering or related double degree.

This scheme applies to 2018 Year 12 students applying for entry in 2019. Visit www.qut.edu.au/entry-bonus

ABORIGINAL AND TORRES STRAIT ISLANDER PEOPLE
The Oodgeroo Unit’s Centralised Assessment Selection Program is an entry program that assists Aboriginal and Torres Strait Islander applicants by recognising life experiences, any study undertaken, and skills, commitment and potential. If you have identified via QTAC as an Indigenous Australian and list QUT in your top three preferences, the Oodgeroo Unit will contact you. The Oodgeroo Unit also supports Indigenous Australian students with a guaranteed scholarship or bursary, pre-orientation program and tutorial assistance.

For more information contact the Oodgeroo Unit by email information.oodgeroo@qut.edu.au, (toll free) phone 1800 645 513, or visit www.qut.edu.au/about/oodgeroo

DOMESTIC STUDENTS WITH OVERSEAS QUALIFICATIONS
QUT will consider equivalent recognised overseas qualifications for admission purposes. If you have secondary or tertiary qualifications from countries where English (as recognised by QUT) is not the standard language of instruction, you must provide evidence of English language proficiency.

For more information contact QTAC—www.qtac.edu.au

JADE ROBERTSON
Nursing
I applied through the Centralised Assessment and Selection Program, and participated in a phone interview where I explained my work history and passion for this new career. The Indigenous Education Costs Scholarship has helped with living expenses, and the Oodgeroo Unit has provided wonderful support for my transition to university.
Check the costs

COMMONWEALTH SUPPORTED PLACES
If you are a domestic undergraduate student you will study in a Commonwealth supported place (CSP) and your fees will be partly funded by the government, with you paying the balance of the course cost. The actual student contribution depends on the number of units studied and the band for each unit, and can vary from semester to semester. For more information check the course details at www.qut.edu.au/study

2018 student contribution bands for Commonwealth supported students

<table>

<td>Computing, built environment, health, engineering, mathematics, statistics, science, surveying</td>
</tr>
<tr>
<td>Band 3</td>
<td>Accounting, administration, economics, commerce, law</td>
</tr>
</tbody>
</table>

HECS-HELP
If you meet the citizenship and residency requirements, you can defer payment of your student contribution with a government HECS-HELP loan. Loans are repaid when students begin their career and their income passes a certain level ($55,874 in the 2017–18 income year). Visit www.qut.edu.au/study/hecshelp

STUDENT SERVICES AND AMENITIES FEE
The student services and amenities fee covers services such as health and welfare, employment and career advice, clubs and cultural events, work experience opportunities, leadership and development programs, study skills and orientation information. The maximum fee for 2018 is $298. Eligible students can defer the fee through a loan scheme called SA-HELP. Visit www.qut.edu.au/study/fees-and-scholarships

OTHER COSTS AND REQUIREMENTS
There are also general living expenses you may need to consider while you are studying, including accommodation, telephone, gas and electricity bills, food, transport, clothing, medical bills and entertainment.

NEW ZEALAND CITIZENS
For New Zealand citizens (including Pasifika peoples who came to Australia as NZ citizens) your residency status will affect how you pay for university and eligibility for financial support (such as HECS-HELP, Centrelink and scholarships). Research these issues as early as possible so you are prepared for university. New Zealand citizen special category visa holders may be eligible for HECS-HELP. For more information search for the FAQs NZ page at www.studyassist.gov.au

LOLINDA TUTONE
Justice and human services
The cost of university was a major challenge. Being a NZ citizen, I thought I had to pay my fees upfront as well as costs for travel, stationery and textbooks. However, because I’ve been in Australia since 1998, I found I could use a HECS-HELP loan to defer payment of my fees. I also received a $3500 Equity Scholarship and a Centrelink student allowance.
5. Research the scholarships

QUT is proud to offer a broad range of scholarships to recognise and support students.

Make sure you explore the range of scholarships available across various faculties and courses, for both commencing and continuing students.

SCHOLARSHIPS FOR HIGH ACHIEVERS

QUT’s Vice-Chancellor’s Scholarships are awarded to students who have demonstrated outstanding achievement. We offer:

- 90 academic scholarships valued at $30,000 each
- 15 academic scholarships valued at $10,000 each
- 8 elite athlete scholarships valued at $30,000 each for commencing students
- 12 elite athlete scholarships valued at $10,000 each for continuing students
- 8 elite visual and performing arts scholarships valued at $30,000 each
- 12 creative industries scholarships valued at $10,000 each

Scholarship holders gain membership to the College of Excellence and the Leadership, Development and Innovation Program. These programs bring together QUT’s best and brightest students and provide opportunities to build a personal and professional development program that challenges them to realise their true potential.

Applications close 16 November 2018.

SCHOLARSHIPS SCHEME FOR LOW-INCOME STUDENTS

In 2019, the Equity Scholarships Scheme has around $4 million in scholarships, bursaries and computers available for people who need financial help.

All low-income students who plan to study at QUT in 2019 are encouraged to apply for Equity Scholarships, which range in value from $1500 to $7500. Academic results are not taken into consideration for these scholarships, only financial need.

If you are from a low-income background, are accepted through the financial hardship category of QTAC’s Educational Access Scheme and enrol at QUT, you will also receive an adjustment of up to six selection ranks for entry to most undergraduate courses at QUT and a guaranteed $3500 Equity Scholarship (see page 25).

Many faculties provide support for students from low-income backgrounds including scholarships and bursaries, emergency grants, textbook vouchers, book loan schemes and employment programs. Information is available through each faculty’s low-income student contact officer.

See page 13 for more information about supporting yourself at university.

Find out more about scholarships at www.qut.edu.au/scholarships

SCHOLARSHIPS FOR ABORIGINAL AND TORRES STRAIT ISLANDER STUDENTS

Indigenous Commonwealth Scholarships are available through the Equity Scholarships Scheme for Aboriginal and/or Torres Strait Islander students who are from low-income backgrounds or experiencing financial hardship. Other scholarships are also available.

SCHOLARSHIPS FOR OUT-OF-TOWNERS

The Tim Fairfax AC Regional and Remote Scholarships and the Dr Laurie Cowled Learning Potential Fund Scholarships are available for students who are experiencing financial hardship and are from regional, rural or remote areas.

JAROD LAM
Mechatronics engineering

I was lucky enough to be awarded a Vice-Chancellor’s Scholarship. Honestly, the money is only part of the benefit—the real value of the scholarship has been the countless opportunities to meet like-minded people. This has given me an amazing support network from the very start of my time at uni.
6. Make your application count

Applications for QUT undergraduate courses, as well as the Master of Teaching and Master of Social Work—Qualifying degrees, are made through the Queensland Tertiary Admissions Centre (QTAC) online application service. Visit www.qtac.edu.au

International students completing Year 12 studies in Australia must apply through QTAC. All other international applicants must apply directly to QUT or through one of our authorised agents or representatives. Visit www.qut.edu.au/international or phone (Australia Freecall) 1800 181 848.

MAKING THE MOST OF YOUR PREFERENCES

Talk to your guidance officer, QUT or QTAC staff about making the most of your six QTAC preferences to increase your chances of being offered your ideal course.

Firstly, list the courses you want to study from most preferred to least preferred. As a guide, your:
• first and second preferences are the courses that you most want to study
• third and fourth preferences are back-up courses that you want to study but are less competitive for entry
• fifth and sixth preferences are courses that are easier to get into, will help you upgrade into your preferred course, and that you are willing to study if you miss out on other choices.

Secondly, check the major offer round date. If all of your preferences have the same major offer round, there’s no need to do anything else. If you have courses listed with different major offer rounds, you then need to order your preferences by major offer round date (from earliest date to latest date). Visit www.qtac.edu.au

CONCERNED YOU WON’T GET IN?

If you don’t think you will receive the OP or selection rank to gain entry into your preferred course you can undertake further study to receive a new selection rank. This is called upgrading.

Your options include completing:
• one full-time year of degree-level study with a passing grade point average of 4 (on a 7-point scale), leading to a selection rank 93
• an advanced diploma (minimum selection rank 93), diploma (minimum selection rank 87), or certificate IV (minimum selection rank 74) through TAFE or other accredited providers
• a TAFE/QUT dual award, which provides guaranteed entry to the QUT course after you successfully complete the TAFE component.

Higher selection ranks may be achieved with higher grade point averages, or for competency-based VET qualifications with the Special Tertiary Admissions Test. All qualifications refer to Australian Qualifications Framework awards.

Make sure you consider these options when completing your QTAC application. For details visit www.qut.edu.au/upgrading

7. Accept your offer

Semester 1 offers will take place between October and January, and Semester 2 offers will take place between April and June. QTAC will notify you by email if you receive an offer and you must accept your offer online by the due date. Once you have accepted your offer through QTAC, you can enrol at QUT via a link in your QTAC application. Visit www.qut.edu.au/study/after-qtac

ADVANCED STANDING

You may apply for advanced standing (credit for prior learning) after you have received your QTAC offer. Students who have completed an International Baccalaureate Diploma may also receive advanced standing for some units. Visit www.qut.edu.au/credit

DEFERMENT

QUT allows all domestic applicants to defer the start of their study for one year, except in some courses using specific admission requirements such as portfolio, audition, prior study or work experience, or where course changes do not permit deferment. In special circumstances, QUT may grant a further deferment of up to 12 months. Visit www.qut.edu.au/deferment

MID-YEAR ENTRY

Keen to start studying as soon as possible? Mid-year entry is available in a range of courses so you may be able to start in July, rather than waiting until the following year. To check the available courses and application dates visit www.qut.edu.au/mid-year
Gardens Point (city) campus
Talk to staff and current students, attend seminars, tour the campus and facilities, and find out what it’s like to study at QUT. All study areas are represented at Gardens Point campus including courses based at Kelvin Grove campus.
Visit Kelvin Grove for tours of the campus and selected facilities. For details visit www.qut.edu.au/open-day
